- Played a key role in maintaining high-quality standards by conducting regular quality checks and ensuring adherence to quality control procedures.
- Trained new team members on standard operating procedures, enhancing team competency and cohesion.
- Created positive working relationships with colleagues as well as supported the team in order to achieve a common goal; handled sensitive issues with tact, respect, and confidentiality.

Technical Skills

Languages: Java, Python, Javascript, HTML/CSS
Developer Tools: Git, Linux, VS Code, Pycharm, IntelliJ

Additional Interests

Weightlifting has instilled discipline, perseverance, and a structured approach to goal setting, which I apply to tackling complex programming challenges in computer science.
Reading has fueled my curiosity and passion for continuous learning, helping me stay updated on industry trends and improve my problem-solving and coding skills.
Running has strengthened my ability to stay focused and manage stress, which helps me maintain clarity and resilience when working on difficult coding tasks or tight deadlines.
